The ECB Umpire Development Course builds on the foundations of the entry-level ECB Umpiring Course, offering a deeper understanding of the Laws of Cricket and how to apply them in real match situations.

Participants will explore key aspects of fieldcraft, match management, and teamwork, learning how to work effectively alongside a colleague and scorers.

This course is a prerequisite for those aspiring to join the Hertfordshire Panel of Umpires but is also ideal for umpires looking to develop confidence and consistency when officiating recreational and lower league matches where independent umpires are not appointed. It also serves as a valuable refresher for existing umpires at any level.
